CFR part 32. Although it should occur infrequently, if a nonprofit GOCO or FFRDC is a participant, you must specify appropriate standards that conform as much as practicable with requirements in that participant's other Federal awards.

§ 37.625 What cost principles or standards do I require for for-profit participants?

(a) So as not to require any firm to needlessly change its cost-accounting system, your expenditure-based TIAs are to apply the Government cost principles in 48 CFR parts 31 and 231 to forprofit participants that currently perform under expenditure-based Federal procurement contracts or assistance awards (other than TIAs) and therefore have existing systems for identifying allowable costs under those principles. If there are programmatic or business reasons to do otherwise, you may grant an exception from this requirement and use alternative standards as long as the alternative satisfies the conditions described in paragraph (b) of this section; if you do so, you must document the reasons in your award file.

(b) For other for-profit participants, you may establish alternative standards in the agreement as long as that alternative provides, as a minimum, that Federal funds and funds counted as recipients' cost sharing will be used only for costs that:

(1) A reasonable and prudent person would incur in carrying out the research project contemplated by the agreement. Generally, elements of cost that appropriately are charged are those identified with research and development activities under the Generally Accepted Accounting Principles (see Statement of Financial Accounting Standards Number 2, "Accounting for Research and Development Costs,3 October 19741). Moreover, costs must be allocated to DoD and other projects in accordance with the relative benefits the projects receive. Costs charged to DoD projects must be given consistent

treatment with costs allocated to the participants' other research and development activities (*e.g.*, activities supported by the participants themselves or by non-Federal sponsors).

(2) Are consistent with the purposes stated in the governing Congressional authorizations and appropriations. You are responsible for ensuring that provisions in the award document address any requirements that result from authorizations and appropriations.

§ 37.630 Must I require a for-profit firm to use Federally approved indirect cost rates?

In accordance with the general policy in §37.605, you must require a for-profit participant that has Federally approved indirect cost rates for its Federal procurement contracts to use those rates to accumulate and report costs under an expenditure-based TIA. This includes both provisional and final rates that are approved up until the time that the TIA is closed out. You may grant an exception from this requirement if there are programmatic or business reasons to do otherwise (e.g., the participant offers you a lower rate). If you grant an exception, the participant must accumulate and report the costs using an accounting system and practices that it uses for other customers (e.g., its commercial customers). Also, you must document the reason for the exception in your award

§ 37.635 What cost principles do I require a nonprofit participant to

So as not to force financial system changes for any nonprofit participant, your expenditure-based TIA will provide that costs to be charged to the research project by any nonprofit participant must be determined to be allowable in accordance with:

(a) OMB Circular A-87,² if the participant is a State or local governmental organization.

¹Copies may be obtained from the Financial Accounting Standards Board (FASB), 401 Merritt 7, P.O. Box 5116, Norwalk, CT 06856-5116. Information about ordering also may be found at the Internet site http://www.fasb.org or by telephoning the FASB at (800) 748-0659.

²Electronic copies may be obtained at Internet site *http://www.whitehouse.gov/OMB*. For paper copies, contact the Office of Management and Budget, EOP Publications, 725 17th St. NW., New Executive Office Building, Washington, DC 20503.

§ 37.640

- (b) OMB Circular A-21,3 if the participant is an institution of higher education.
- (c) 45 CFR part 74, appendix E, if the participant is a hospital.
- (d) OMB Circular A-122, if the participant is any other type of nonprofit organization (the cost principles in 48 CFR parts 31 and 231 are to be used by any nonprofit organization that is identified in Circular A-122 as being subject to those cost principles).

§ 37.640 Must I include a provision for audits of for-profit participants?

If your TIA is an expenditure-based award, you must include in it an audit provision that addresses, for each forprofit participant:

- (a) Whether the for-profit participant must have periodic audits, in addition to any award-specific audits, as described in §37.645. Note that the DCAA or the Office of the Inspector General, DoD (OIG, DoD), can provide advice on the types and scope of audits that may be needed in various circumstances.
- (b) Whether the DCAA or an independent public accountant (IPA) will perform required audits, as discussed in § 37.650.
- (c) How frequently any periodic audits are to be performed, addressed in §37.655.
- (d) Other matters described in §37.660, such as audit coverage, allowability of audit costs, auditing standards, and remedies for noncompliance.

§ 37.645 Must I require periodic audits, as well as award-specific audits, of for-profit participants?

You need to consider requirements for both periodic audits and award-specific audits (as defined in §37.1325 and §37.1235, respectively). The way that your expenditure-based TIA addresses the two types of audits will vary, depending upon the type of for-profit participant.

(a) For for-profit participants that are audited by the DCAA or other Federal auditors, as described in §§ 37.650(b) and 37.655, you need not add specific requirements for periodic audits because the Federal audits should be sufficient to address whatever may be needed.

Your inclusion in the TIA of the standard access-to-records provision for those for-profit participants, as discussed in §37.915(a), gives the necessary access in the event that you or administrative agreements officers later need to request audits to address award-specific issues that arise.

- (b) For each other for-profit participant, you:
- (1) Should require that the participant have an independent auditor (*i.e.*, the DCAA or an independent public accountant) conduct periodic audits of its systems if it expends \$500,000 or more per year in TIAs and other Federal assistance awards. A prime reason for including this requirement is that the Federal Government, for an expenditure-based award, necessarily relies on amounts reported by the participant's systems when it sets payment amounts or adjusts performance outcomes. The periodic audit provides some assurance that the reported amounts are reliable.
- (2) Must ensure that the award provides an independent auditor the access needed for award-specific audits, to be performed at the request of the cognizant administrative agreements officer if issues arise that require audit support. However, consistent with the government-wide policies on single audits that apply to nonprofit participants (see § 37.665), you should rely on periodic audits to the maximum extent possible to resolve any award-specific issues

§ 37.650 Who must I identify as the auditor for a for-profit participant?

The auditor that you will identify in the expenditure-based TIA to perform periodic and award-specific audits of a for-profit participant depends on the circumstances, as follows:

(a) You may provide that an IPA will be the auditor for a for-profit participant that does not meet the criteria in paragraph (b) of this section, but only if the participant will not agree to give the DCAA access to the necessary books and records for audit purposes. Note that the allocable portion of the costs of the IPA's audit may be reimbursable under the TIA, as described in §37.660(b). The IPA should be the one that the participant uses to perform

³ See footnote 2 to § 37.635(a).
